Optional Winery Tour (transportation included)

Join us for a relaxing visit to Paper Moon and Quarry Hill Vineyards to experience award winning local wines, tour the winemaking process, and enjoy the beautiful scenery that surrounds the area.

Paper Moon sits on 50 acres of land just west of the Vermilion River in the historic harbor town of Vermilion. Located less than two miles from Lake Erie, Paper Moon benefits from the moderating climate the lake provides. This property lies in a region known for its flourishing vineyards. The remnants of an old concord vineyard can still be seen near the entrance!

Quarry Hill, part of the "Lake Erie Shores & Islands Wine Trail", was established in 2005. Quarry Hill offers a wide variety of estate grown wines. Once referred to as "The Pinnacle", the vineyard was planted on the highest point of the farm, almost 850 feet above sea level, and offers a spectacular view of the area landscape and distant views of Lake Erie.

At each winery, guests receive 5 tastings and an appetizer to share.
